

## Virtual Distance Learning Day Office Hours Schedule

On virtual distance learning days, teachers will hold office hours according to the schedule listed below. During this time, teachers will be available to support students who need help with assignments or have questions related to their learning.

Please note that office hours are intended specifically for academic support. This time is not meant for general conversation or social check-ins. Students should come prepared with their specific questions or areas where they need assistance. If your child does not need support, they do not need to sign on.

Thank you for helping us ensure that office hours are used effectively to support student learning. We appreciate your partnership.
